

PARTNER IMPACT STORY

THE WINCHESTER LEARNING CENTER

While she was looking for work, single mom Amy desperately needed to find affordable, high-quality childcare and preschool programs for her three children. The Winchester Learning Center (WLC) provides a warm, supportive, and stimulating environment. They focus on the individual needs of each child and their family. Amy's children were enrolled with financial assistance from the NH Childcare Tuition Assistance program and a Monadnock United Way scholarship.

Amy was successful in finding first-rate care for her children. What's just as impressive is the amount of support and assistance she received from WLC. They are serious about focusing on the needs of the family as well as the children in their care.

Amy was seeking a paraprofessional position in her hometown, eager to assist teachers and support children. However, she needed some assistance herself to make that goal come true. Staff at the WLC provided wrap around services that can make all the difference to a struggling family. They helped Amy write her resume and letters, and provided funds for her to purchase diapers, wipes, food, and gas while she was unemployed.

All the hard work paid off – Amy got the job! As an added bonus, Amy will work at WLC as a substitute teacher during school breaks, ensuring year-round income. As you can imagine, the combination of excellent childcare and the support Amy received at WLC made a huge difference for her and her children!
