

*PARTNER IMPACT STORY*  
**MONADNOCK  
ALLIANCE FOR  
FAMILIES**

While looking for a preschool program for the oldest of their three children, Sandy and Robin were introduced to The Grapevine Family and Community Resource Center in Antrim, NH. They were thrilled to learn about The Learning Vine Preschool, an outdoor, play-based program where kids go at their own pace. Their daughter thrived and her younger sister attends now, too.

Sandy describes an environment of trust, comfort, and support. "It's been an amazing place for all of us. The staff are friendly and welcoming, and I really appreciate the no pressure atmosphere. My children aren't pushed to do things until they are ready and can just be who they are."

The family participates in other Grapevine programs, including Stay and Play program for caregivers and their children, and special events like Snow Families in the winter and the Annual Spring Walk for Families. Sandy reports that the programs they've joined are very supportive of parents and offer great ideas. The Grapevine, part of the Monadnock Alliance for Families, is a shining example of what's possible when organizations and communities come together to support and enrich families and children.
