

STRONGER TOGETHER

THIS IS MY UNITED WAY

by Nancy Glasheen

Human Resources Business Partner at
C&S Wholesale Grocers

Before volunteering as a Loaned Employee (LE) for the 2019-2020 Monadnock United Way Campaign, I volunteered primarily to support my children's involvement in school, sports, and extracurricular activities.

I would frequently lend a hand to plan events and participate in supporting their activities. Serving as an LE was my first foray into the nonprofit world. This experience increased my awareness of MUW and the important work they do, which influenced me to give back to the community at large.

The LE training taught me about the different programs and services that are available to the community as a result of campaign funding each year. Before working with MUW, I wasn't aware of the process and complexities of distributing funds to local services. I learned that the allocations are done thoughtfully and carefully, resulting in fairness and support for agencies demonstrating stability and consistency. I also learned how much the community agencies value their partnerships with MUW and their dedicated staff.

As an LE, I helped organizations run their campaigns and provided detailed information about how their generously donated dollars helped the community. I experienced great satisfaction in acting as a liaison, connecting donors and contributions to programs and services.

Many local businesses created fun and imaginative donor campaigns, and it was gratifying to observe them investing and donating within their communities.

The donations were a badge of honor for many local businesses, and they took great pride in making their annual gifts to the campaign.

MUW provides funding without opinion or judgment. People living in the community can experience a set back and may need services to get themselves whole. The community partners and agencies supported by MUW offer an assortment of services to help people achieve and improve their lives.

I invite you to join me in volunteering with MUW, where you'll have an opportunity to have fun, be creative, step outside your comfort zone, and dive in. Being a volunteer affords many opportunities to learn about services provided in the community, the passionate people working at these community services institutions, and the group of dedicated people at MUW.

When you give a gift in any amount to MUW, you can be sure your donations will be equitably distributed based on need. If you are passionate about a particular cause, you can earmark your donation for a specific agency.

"People living in the community can experience a set back and may need services to get themselves whole. The community partners and agencies supported by MUW offer an assortment of services to help people achieve and improve their lives."

I encourage you to consider contributing to the general fund which impacts a wide variety of agencies and services in the Monadnock region.
